

Security & Emergency Management

Critical Infrastructure Protection

حماية البنية التحتية الحيوية

Duration

5 or 10 days

Language

English or Arabic

Formats

Classroom, online, in-house

Hours

35 / 70

Overview

Critical Infrastructure Protection is part of the Security & Emergency Management track at Garnet Global Training Center. Protect people, assets and operations, and recover quickly when things go wrong. The course is taught in English or Arabic as a 5-day or 10-day program, in classrooms in cities such as Dubai, Riyadh, Cairo, London and Istanbul, or live online, and it can be delivered in-house with examples and exercises built around your own operations.

What you will be able to do

- Explain the principles, terminology and standards that govern Critical Infrastructure Protection.
- Apply proven methods and tools to real situations from your own workplace.
- Analyse performance gaps, risks and root causes, and choose the right response.
- Measure results with practical indicators and report them clearly to management.
- Leave with a personal action plan you can start using the following week.

Who should attend

Security managers, emergency planners, business continuity and risk professionals.

Key topics

- Threat and vulnerability assessment
- Business continuity
- Physical security design
- Exercises and drills
- Incident command
- Investigations
